

85,000 MILES

... not yet been decarbonised

*Read what
this
taxi company
says about
HOLDEN*

"... our first Holden has now covered 85,000 miles and has given every satisfaction. We subjected this car to every test and have found that it has maintained a constant 30 miles per gallon despite the fact that it has not yet been decarbonised.

"One of the most impressive features of the Holden is the sturdiness of the body. At no time during the mileage covered has there developed any sign of wear and tear on the body structure. The complete absence of rattles, door sags and misfits and the remarkable way the upholstery has stood up to the rigours of taxicab work have convinced us that Holden is the job"

Yours faithfully,

(Sgd.) A. McHAFPIE,
Director,
Silver Top Taxi Service Pty. Ltd., Adelaide

*"Air Chief" Radios are specially designed for Holden. Air Chief 5-valve with a 6-inch speaker, or Air Chief 6-valve with an 8-inch speaker.
*Convenient hire purchase terms are available through G.M.A.C.—General Motors, own finance company.

Small items will be sent post free with next copy of the magazine, otherwise please add postage.

Hi All,

I hope you all enjoyed your Christmas. Happy new year to everyone. I hope you all have a Great year.

Now is bit of a quite time for things automotive.

Personally I think it is just a little bit too cold to be outside tinkering with cars!

You will see on page 15 an official Holden Safety Recall Notice. I don't think that any member with one of the cars affected actually has a factory fitted towbar, but it is worth recording this notice for future reference.

It is also worth noting that, should any of your cars be the subject of a recall notice, arrangements can be made to make any modifications required, wherever the owner lives. If you should need any further information please get in touch with the Club.

Regards

Ken
